

SHAIROW KUMAR

Senior Associate – Quality & Training | AI & Automation Builder

shairowk@gmail.com | +91 99553 36195 | linkedin.com/in/shairowkumar | India

PROFESSIONAL SUMMARY

Quality & Training professional with 3+ years of experience in audits, training, and vendor operations. Certified Lean Six Sigma Green Belt. Promoted twice for strong performance — at PhysicsWallah and Battery Smart. Built and shipped 8+ internal tools with ₹0 software budget — including an AI quality platform live across vendor sites, an AI pipeline that has transcribed 1,600+ hours of calls, and CRMs used to manage 30,000+ leads — using Google Apps Script, Python, Firebase, Gemini, and Claude.

PROFESSIONAL EXPERIENCE

Senior Associate – Quality & Training

May 2025 – Present

Battery Smart India | India — Promoted from Quality Analyst for strong performance

- Lead all quality and training work for a vendor site — setting the rules, targets, and communication standards the team follows.
- Set up KPI/KRA targets for the team that led to clear improvements in quality scores and service.
- Automated call transcription and QA auditing with AI (Deepgram + Claude/Gemini) — 1,600+ hours of calls transcribed and 500+ transcripts auto-scored against the audit SOP.
- Built training programs with ready-to-use content, helping new agents learn faster and score better in assessments.
- Created live dashboards so leadership can see quality and training results at any time and act on them.
- Run weekly calibration sessions so all auditors score calls the same way.

Quality Analyst

Jan 2024 – May 2025

Battery Smart India | India

- Built automated audit workflows that increased audit coverage by 60%+ and cut manual work and turnaround time.
- Used root cause analysis (DMAIC) to find why quality issues kept happening and fixed the process, reducing repeat issues.
- Wrote training documents and quality standards that the company later adopted for all its QA work.
- Started the calibration process so the whole quality team evaluates in the same way.

Quality Analyst

Apr 2023 – Nov 2023

PW (PhysicsWallah) | Bhopal, India — Promoted from Associate within 8 months for excellent performance

- Handled quality checks across voice, email, and chat — reviewing 500+ customer interactions every month.
- Spotted common quality problems, found their root causes, and fixed them — improving customer satisfaction scores.
- Presented weekly and monthly quality reports to leads and management to help them make decisions.

Associate – Email & Chat Support

Aug 2022 – Apr 2023

PW (PhysicsWallah) | Bhopal, India

- Handled customer queries on email and chat in a 50+ member team, keeping response quality high and flagging repeat issues to team leads.

KEY PROJECTS (ALL SELF-BUILT, ₹0 SOFTWARE COST)

- **Cloud Quality Management Platform** — complete quality web app (Firebase Hosting, Firebase Auth, Firestore, Gemini API) for live audit tracking, calibration, and KPI dashboards. Built, deployed, and maintained solo; live across 3 vendor sites.
- **AI Transcription Pipeline (1,600+ hours)** — Python + Deepgram pipeline that transcribes Hindi/Hinglish call recordings and auto-matches each transcript to the right CRM row by phone number and timestamp; built in Colab, desktop, and Apps Script variants.
- **AI QA Audit Tool** — Apps Script + Claude API tool that scores 500+ call transcripts per batch against the team's real audit SOP, auto-filling scores, risk flags, and summaries.
- **Outbound CRM & Reporting Dashboard** — login-based CRM on Google Sheets + Apps Script managing 30,000+ leads: campaign call queues, guided survey forms, and live supervisor analytics. Replaced a paid CRM.
- **Email CRM (Gmail-synced)** — Apps Script CRM with two-way sync to a live Gmail account — auto-logs every mail against the right contact, with a status pipeline, follow-up reminders, and templated bulk replies.
- **SOP-Based AI Chatbot** — internal AI assistant (Gemini API, prototyped in Google AI Studio) that answers agents' SOP questions in simple Hinglish, reducing floor support and speeding up learning.
- **Unified Portal Hub** — consolidated three Apps Script web apps (PKT quiz portal, Training LMS, Audit portal) into one deployment with a single URL and router — one link for the whole org.
- **LMS & New-Hire Training Dashboards** — real-time learner progress, course completion, and onboarding milestone tracking with automated reports for HR and trainers — manual MIS work fully automated.

CORE SKILLS

Quality Management: Audit Design, Calibration, Root Cause Analysis, DMAIC, Lean Six Sigma, Quality Scorecards

Training & Development: Training Program Design, Training Needs Analysis, Content Creation, New-Hire Onboarding, Assessments

Analytics & Reporting: KPI/KRA Design, Dashboard Development, Data Analytics, Performance Reporting

Process & Governance: Vendor Management, SOP Writing, Workflow Automation, Audit Management

AI & Technology: Google Apps Script, Python (Colab), Gemini API, Claude API, Google AI Studio, Deepgram Speech-to-Text, Gmail API, Firebase Hosting/Auth/Firestore, Google Cloud Platform, HTML/CSS/JS, Google Chat Bot

EDUCATION & CERTIFICATIONS

B.Tech, Mechanical Engineering — IES's College of Technology, Bhopal 2017 – 2021

Certification: Lean Six Sigma Green Belt (DMAIC, process improvement, statistical analysis)
